Maybe even better than free.

Unfortunately, we can't make that part free. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Any file in any format can be uploaded and downloaded for free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. It is also allowed to link to the download page from websites and communities. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of times a file can be downloaded. You can give this downloadlink to your friends by mail or instant messenger. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. You can upload any type of file (movies, music, documents, images, zip files and more). Simply upload yourfile and share the link. File is free to use with no gotchas and no hidden fees. Our service is completely free for everyone. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to yourfile. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phoneand our servers, then from our servers to your friends device. Keep your files private, or send your download links only to friends or family. The cost of thatdata transfer is covered by your internet service or the data plan on your phone. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using filecan actually save you money. You decide who you want to share your files with. When you use file, you avoid storing the file you're sending in your cloudstorage or mail server. So try our free and simple filehosting service now.
